

## Resin Long Oil ALT517 - W70

**Technical Data Sheet:**

Type of fatty acid	Soya
Solid Content (%)	1 ± 70
Type of Solvent	White Spirit
Viscosity (25°C/Gardner)	3000 – 7000 (Sec)
Color (Gardner)	Max 4
Acid Value (mgKOH/g)	Max 12

**Features:**

- High viscosity
- Very good adhesion
- Good surface and deep drying
- Very good gloss and gloss retention

**Applications:**

- Gloss and semi-gloss architectural paints
- Metal structural coatings
- Architectural and industrial varnishes
- Wood and metal coatings

**Storage conditions and time:**

Store the product in main and sealed containers in a cool dry place (away from fire or heat or direct sunlight) at 5 to 30 degrees Celsius. If the above conditions are met, the shelf life of the product is maximum 12 months from the time of delivery.

**packing:**

190kg Barrels

**Description:**

Solid percentages, viscosity and other product quality parameters will be adjusted to customer requirements.
